

NUE UNO

The NueSynergy Connections tournament — Player Guide

Play here

nue-uno-prod.web.app

Works on a laptop or phone — no download needed. Use your **@nuesynergy.com** work email.

Pool play is open now. It runs until the tournament starts **Thursday 10/8 at 1:00 PM Central**. **Every win counts** — at any table size, 2, 3 or 4 players — and the more you play, the better your shot at the headphones.

Quick start

- 1 **Open the link** above and choose **Create account** (Part 1–2).
- 2 **Set up your player card** — name, avatar, department — and tap **Let's play**.
- 3 **Get a seat:** tap **⚡ Quick Match (ranked)**, join a table under **Open tables**, or start your own (Parts 3–4).
- 4 **Play, win, repeat.** Check the **Leaderboard → All games** tab to see where you stand.

What's inside

Part 1	Get to the game and sign in
Part 2	Create and set up your account
Part 3	Create a table — for the table lead
Part 4	Join a table and play

PART 1

Get to the game

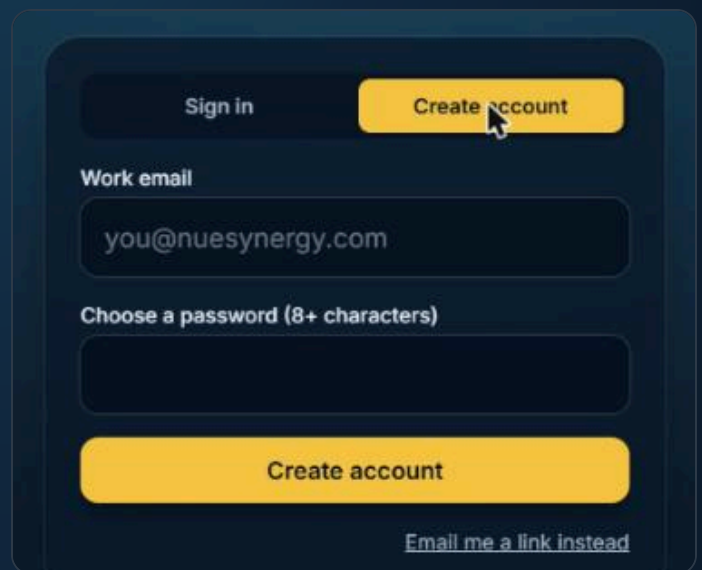

- 1 Open **https://nue-uno-prod.web.app** in your browser (Chrome, Edge, Safari — laptop or phone).
- 2 You'll land on the **NUE UNO** sign-in page. Only **@nuesynergy.com** emails work — anything else shows *"Use your @nuesynergy.com work email."*
- 3 Tip: on a phone, use your browser's **Add to Home Screen** to keep Nue Uno one tap away.

PART 2

Create and set up your account

- 1 Tap the **Create account** tab.
- 2 Enter your **Work email**.
- 3 Choose a password — **8 or more characters**.
- 4 Tap **Create account**. No email verification needed — you're straight in.

Already have an account? Use the **Sign in** tab.
Forgot your password? Tap **Forgot password?** or **Email me a link instead**.

The Create account tab

Then, set up your player card (about 30 seconds)

- **Display name** — what other players see (up to 24 characters).
- **Avatar & colour** — pick an animal and a colour.
- **Department** — choose yours from the list.
- **Will you be at the in-office event?** — Yes / Not sure / No. Only in-office players can be seeded into the bracket.
- Tap **Let's play**.

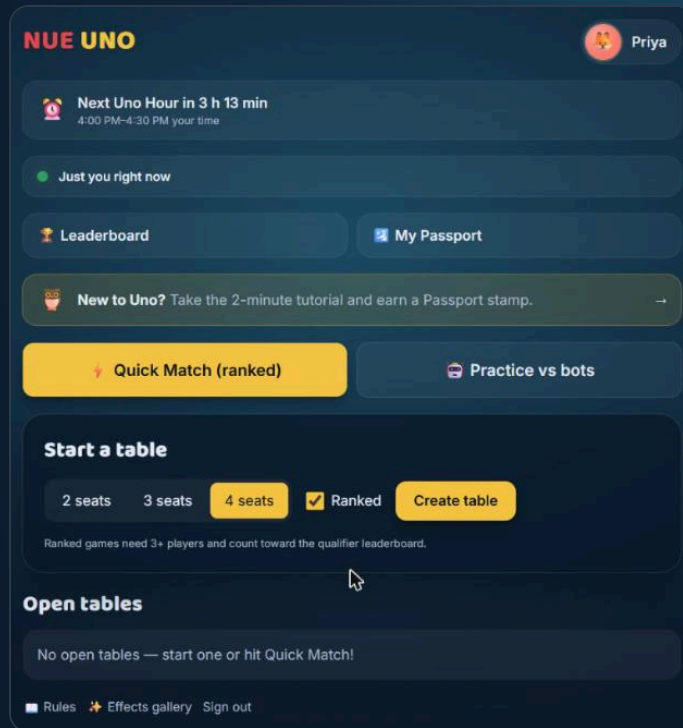

New to Uno? A 2-minute tutorial starts next — tap **Start the tutorial** to play a practice game against Coach, or **← Skip for now**. You can also use **Practice vs bots** any time from the lobby.

Seeing **"Almost there"** after sign-up? An organizer needs to approve your account — you'll get in automatically once they do.

PART 3

Create a table — table lead

Want to play with specific coworkers? Be the table lead: you open the table, share the link, and start the game.

Lobby — **Start a table**

Waiting room — share the link, then start

- 1 In the lobby, find the **Start a table** panel.
- 2 Pick the seats: **2 seats**, **3 seats** or **4 seats** (4 is the default and the most fun).
- 3 Tap **Create table**. You're taken to the waiting room.
- 4 Tap **Copy link** next to **Invite link** and send it to your coworkers in Teams or email. Your table also shows up under **Open tables** for anyone in the lobby.
- 5 When enough players have taken a seat, tap **Start game**. It's available to you, the host, once **2 or more** players are seated — until then it says *Waiting for players...*

Every game counts. During pool play every game scores leaderboard and bracket-seeding points at **any table size** — even 2 players. So start tables whenever you can; don't wait for a full house.

Changed your mind? **Leave table** hands hosting to the next seated player. Stuck waiting? Tap **← Lobby** and try **⚡ Quick Match (ranked)**.

Join a table and play

Three easy ways to get a seat:

⚡ Quick Match

Tap **⚡ Quick Match (ranked)** in the lobby. We drop you at an open ranked table, or start a new 4-seat table that begins automatically when it's full. **Fastest way to get a game.**

Open tables

Scroll to **Open tables** in the lobby, find a table that has room (e.g. "Priya's table · 2/4") and tap **Join**. It says **Full** when there's no room.

A link from the lead

Open the invite link you were sent, then tap **Take a seat**. If it says *Table full*, head back to the lobby.

Once you're seated, wait in the waiting room — the table lead starts the game (Quick Match tables start by themselves when full). You can only sit at one table at a time; use the **"You're seated at a table"** banner to jump back.

How a turn works

- **Your turn** shows in gold at the top right. You have **30 seconds**.
- **Play a card** that matches the colour or number of the top card — just tap it.
- **No match?** Tap the deck to **Draw a card**. If the drawn card is playable, play it or tap **Pass**.
- **UNO!** When you're down to one card, tap **UNO!** first. If another player forgets, tap **Catch!** 🎯 on them.
- First to empty their hand wins.

The game screen — your hand is at the bottom

After the game — the Leaderboard

Tap **🏆 Leaderboard** in the lobby. Three tabs:

- **All games** — **every win, at every table size**. This is the one to watch for the headphone giveaway.
- **Qualifier** — points from every game (best 10 count) that decide the bracket seeding.
- **🏠 Department Cup** — how your department stacks up.

Pool play ends Thursday 10/8 at 1:00 PM Central, when the tournament begins. Play as many games as you can before then — good luck!
